

REPORT OF EXAMINATION OF ALASKA SALMON STREAM

DEPARTMENT OF COMMERCE BUREAU OF FISHERIES

Name of stream **Sunshine Cove Creek**
(right hand creek)

Date examined **7/8 and 7/9/37**

Location
On southwest entrance of Saginaw Bay in Frederick Sound

Approximate length **3 to 4 miles** Width **6 to 35 ft.** Depth **6 in. to 6½ ft.**

Condition and stage (whether clear, high, low, etc.) **High and clear**

Lakes, if any, size, character, and whether accessible from sea **No lake accessible from sea**

Salmon run (heavy, light, average, etc.) **Light**

Date and duration of run of each species **7/24**

Estimated number of each kind of salmon on spawning beds, or in stream **Chums 7,000**

Former size of runs of each species and evidence of depletion, if any

Natural barriers and whether removable **Mostly natural barriers**

Where markers are placed **One on the northwest side of the Cove and the other on the north side of the Cove, at the entrance**

Remarks, sketches, etc. **The right hand creek in Sunshine Cove is 1½ mile long. It has two fine lakes which should be cleared from a small falls so the reds can have a chance to get into the lakes.**

(sgd.) **H. W. Homeyer, Stream Watchman**

(Name and title of employee making examination)

Send original to Washington office, one copy to Seattle office, and one copy to Juneau office.

Use reverse side if additional space is required, or explanatory sketches are made which can not go on this side.
